How to read **this**.

A family office here means a dedicated investment or wealth vehicle. Not a private bank, not a PE fund with outside investors, not an accountant with a family-office brochure.

Single family office or family vehicle. One family or founder, own capital. Holdings like HAL, SHV and Reggeborgh count: the structure differs, the behaviour does not.

Multi family office. Independent firm serving several families. Firms that were absorbed or closed before October 2026 are out.

Anthos, Brenninkmeijer. One office, roughly 20 billion euro under management. Several of the others would fit in its rounding error.
